PROFILE

Knowledgeable in Python Full stack developer with a strong foundation in Front-end development , Well versed in Python Full stack technologies. Proficient in **HTML** , **CSS** , **JavaScript** , **React JS** , **Python**, **Django**. Equipped with strong problem-solving skills , I thrive in dynamic environments where I can contribute to cutting-edge projects and push the boundaries of technology.

PROJECT

PYTHON DJANGO PROJECT

"VISION OPTICAL " -

"I have developed an innovative eyewear destination, EyeVision Optical, harnessing Django for its robust backend. This dynamic platform offers seamless user experiences with tailored login, register, and order pages. Utilizing Django's security features, transactions are fortified, ensuring user data integrity".

REACT PROJECT

"CRUD APP" -

"I have crafted a responsive CRUD application with React and Node.js, facilitating seamless data management. This dynamic platform empowers users to Create, Read, Update, and Delete records effortlessly. Elevate your data handling with this efficient React and Node.js solution."

Courses and Certification

- Certified in Python Programming language
- Certified in Full Stack Web Development.
- Certified in PGDCA (Post Graduate Diploma in Computer Applications)
